Subject: RE: Dimock Unvalidated EDDs for metals data

Hi Rupert,
The tables need some post-processing. I will get with Scott to find out exactly what changes he makes so that they properly match up with the sample and GPS info in Scribe. I hope to have this to you by the end of the day tomorrow.
Thanks,

Rich, attached are the rest of the metals data from Region 3. The EDDs contain unvalidated data for WO1202004 and WO1202005.
